

MESSAGE TO FAMILIES OF YOUNG CHILDREN WITH AUTISM

An Important Message to Massachusetts Families With Children Under Age 9

Diagnosed with an Autism Spectrum Disorder

Open Registration October 17th, 2017 to October 31st, 2017

The Autism Division of the Department of Developmental Services (DDS) runs a Autism Waiver Program that provides one-to-one interventions to help children with autism who exhibit severe behavior, social and communication problems through a service called **Expanded Habilitation, Education** (intensive in-home services and supports). This service occurs in the child's home or other natural settings under the supervision of trained clinical staff and is available for a total of three years. The waiver also provides related support services such as community integration activities and respite. At the conclusion of the three years of intensive services, a child may access supplemental services that meet the child's needs and help with the transition out of the intensive Autism Waiver Program until the child's 9th birthday.

The Waiver is now able to serve 385 children and while the Autism Waiver Program is near capacity at this time, there are always children who leave the Program because they turn 9 or for other reasons. Therefore, we want a current applicant pool to draw from when these spots become available for the Program. Therefore, the Autism Division is offering an opportunity to apply for the waiver through an open request application period. The Autism Division held its last open request registration in October, 2016. **The open request period runs from October 17th - October 31st. Please be sure to MAIL or EMAIL the application between October 17th and October 31st. The Autism Division will discard submissions outside of this timeframe. If you submitted an application during the last open request application period in October 2016, YOU MUST RESUBMIT AN APPLICATION FOR 2017.**

The Autism Program maintains reserved capacity for children who are age 3 and transitioning out of Early Intervention. This means that the Autism Division reserves 20 statewide slots for children who are age 3. These children will still need to meet all relevant financial and clinical eligibility standards required for entry into the Program.

The Autism Waiver serves children up until their 9th birthday, with an autism spectrum disorder who meet the eligibility criteria for the Waiver Program. All waiver services require that the child continues to meet the financial and clinical eligibility requirements for the Waiver Program.

This message is to notify you about the eligibility requirements for the Autism Waiver Program:

Eligibility: the following requirements are necessary for participation in this program:

1. The child must have a **confirmed diagnosis** of an Autism Spectrum Disorder, subject to verification by the Department of Developmental Services.
2. The child has not yet reached his/her 9th birthday. Children birth through age 8 may participate.
3. The child is a resident of Massachusetts.
4. The child meets the level of care required for services in an Intermediate Care Facility for persons with an Intellectual Disability (ICF/ID) as assessed by DEPARTMENT OF DEVELOPMENTAL SERVICES.
5. The family chooses to have the child receive services in the home and community.
6. The child must be able to be safely served in the community.
7. The child must have a legally responsible representative able to direct the services and supports of the Waiver.
8. The child must be found by the MassHealth agency to be eligible for MassHealth Standard coverage, based on family income. **For families who have not yet applied for MassHealth, this must be done at the time of the filing of the Waiver Program Eligibility Request Form.**
